

Cybersecurity Awareness and Risk Management Services

People are often the weakest link in keeping your organisation secure. A lack of understanding and training about cyber risks, cyber threat actors and industry vulnerabilities will increase your exposure to a cyber incident.

Chubb believes that every individual in your business should be empowered to help strengthen cybersecurity and that they need to understand how their actions can impact cybersecurity and lead to an increased chance of cyber attack.

The human dimension of cybersecurity is critical to cyber safety. Cyber education and risk management focuses on creating behavioural change amongst both employees and the organisation to create a culture of best practice cyber safety in a business.

Chubb Cyber policyholders have access to the discounted services of Cybersafe Legal and a cybersecurity awareness and risk mitigation program designed to minimise cyber exposures. Chose from one of the options below or Cybersafe Legal can prepare a customised cyber awareness and risk management program tailored to your professional and budgetary needs.

There are four training programs available:

Option 1 - Cyber Ready

In house cyber awareness training seminars for all staff in the organisation.

The key benefit of face to face cybersecurity awareness training is the ability to personalise learning and to respond to the specific industry requirements and needs of every client.

Option 2 - Cyber Aware

Comprehensive guidelines for an appropriate Security Education Training and Awareness protocol for your business.

A review of the client's current cyber education program and available training techniques and the preparation of key procedures and topics to be covered in an optimal cyber awareness regime.

Option 3 - Cyber Learn

An online interactive training course on cybersecurity for all staff. Access anytime and anywhere for updated cybersafety education.

Option 4 - Cyber Respond

Preparation of a customised Cyber incident Response Plan. A comprehensive Incident Response management plan outlining the steps to take in the event of a cybersecurity incident.

Key Learning Objectives

- What is cybersecurity
- Why your business is a target for attack
- Who are the main cyber threat actors
- What are the most likely methods of attack
- How your business can protect itself
- Steps individuals can take to minimise risk

Why Chubb?

Leadership – We have been committed to protecting organisations with content exposures for over 40 years. Our expertise allows us to develop “all risk” coverage. What’s more, Chubb offers a full suite of complementary insurance solutions, including directors and officers liability, employment practices liability, and property and casualty coverages.

Protection – The true measure of an insurer is how it responds to and manages claims. We strive to treat each customer the way we would like to be treated if we experienced the same loss - with integrity, empathy, promptness, and fairness - and to reach mutually agreeable outcomes.

Endurance – Chubb’s financial stability and ability to pay claims rate among the best in the insurance industry, as attested by leading insurance rating services.

About Chubb in Australia

Chubb is the world’s largest publicly traded property and casualty insurer. Chubb, via acquisitions by its predecessor companies, has been present in Australia for 100 years. Its operation in Australia (Chubb Insurance Australia Limited) provides specialised and customised coverages including Business Package, Marine, Property, Liability, Energy, Professional Indemnity, Directors & Officers, Financial Lines, Utilities as well as Accident & Health, to a broad client base, including many of the country’s largest companies. Chubb also serves successful individuals with substantial assets to protect and individuals purchasing travel and personal accident insurance.
